

Nuclear medicine investigations

Patient name:

Patient number:

Type of examination:

Activity received: MBq

Scan time in gamma camera:

The investigation you have had today involves the use of a radioactive material.

As a result, we ask that you take the following precautions for 24 hours after your scan has finished:

- drink plenty of fluids throughout the day
- empty your bladder as frequently as possible and before you return for the scan itself
- avoid prolonged contact with other people, where possible
- in particular try to minimise contact with children or pregnant women.

For further information, contact the Nuclear Medicine/Gamma Camera Unit, Doncaster Royal Infirmary, tel: (01302) 366666 ext 3487.
