

Health and Care Working Together in South Yorkshire and Bassetlaw

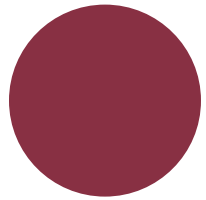

An Accountable Care System

November 2017

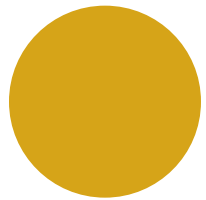

Up front...

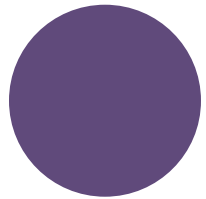

Don't have all the answers

Not perfect, we have and will get things wrong

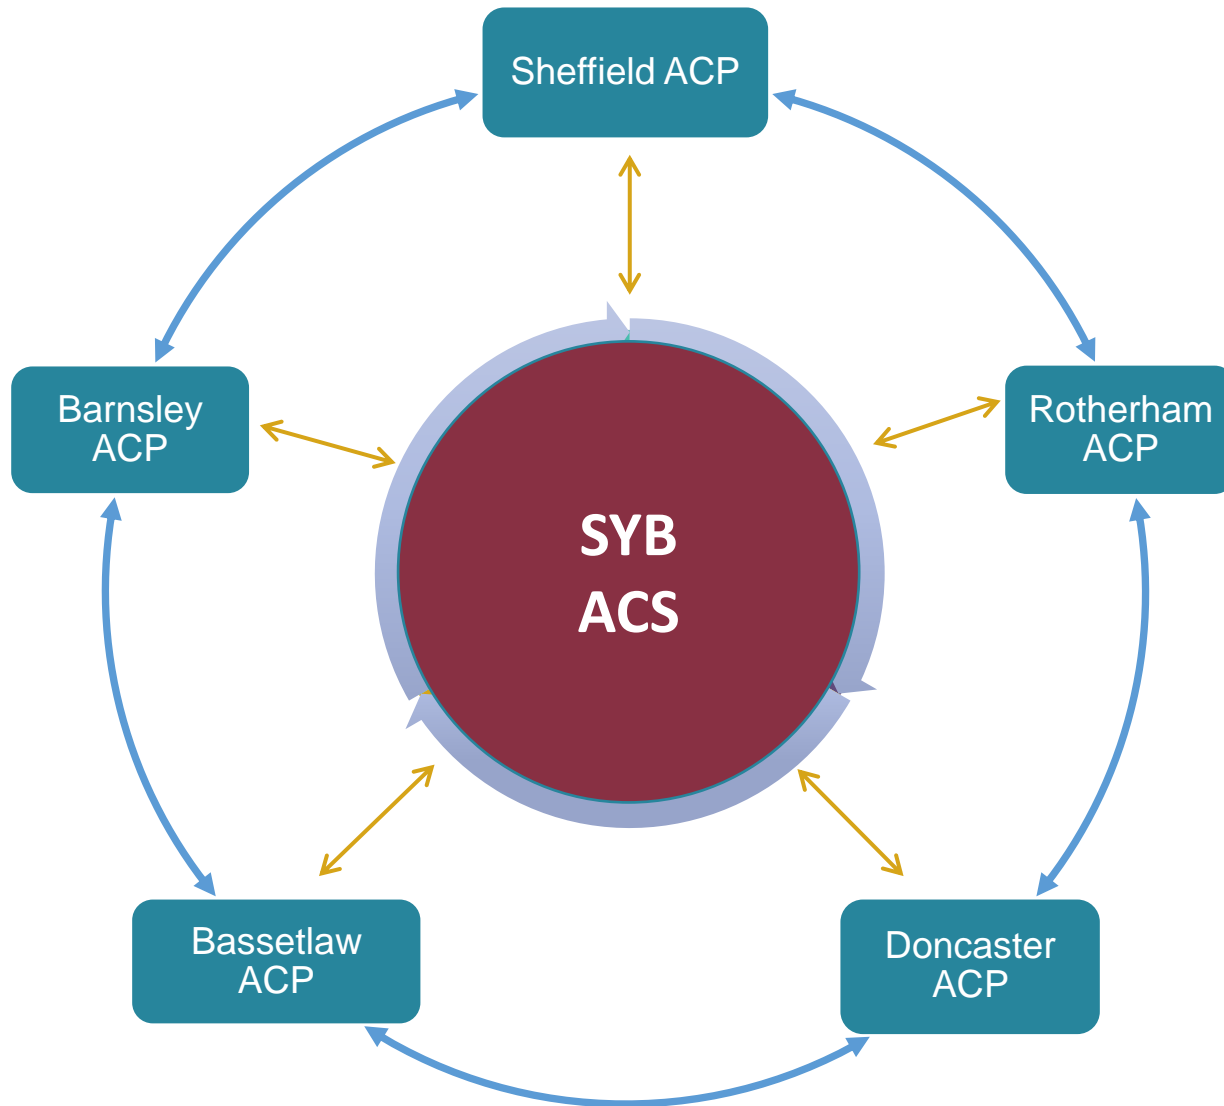

No clear path, complex... very complex

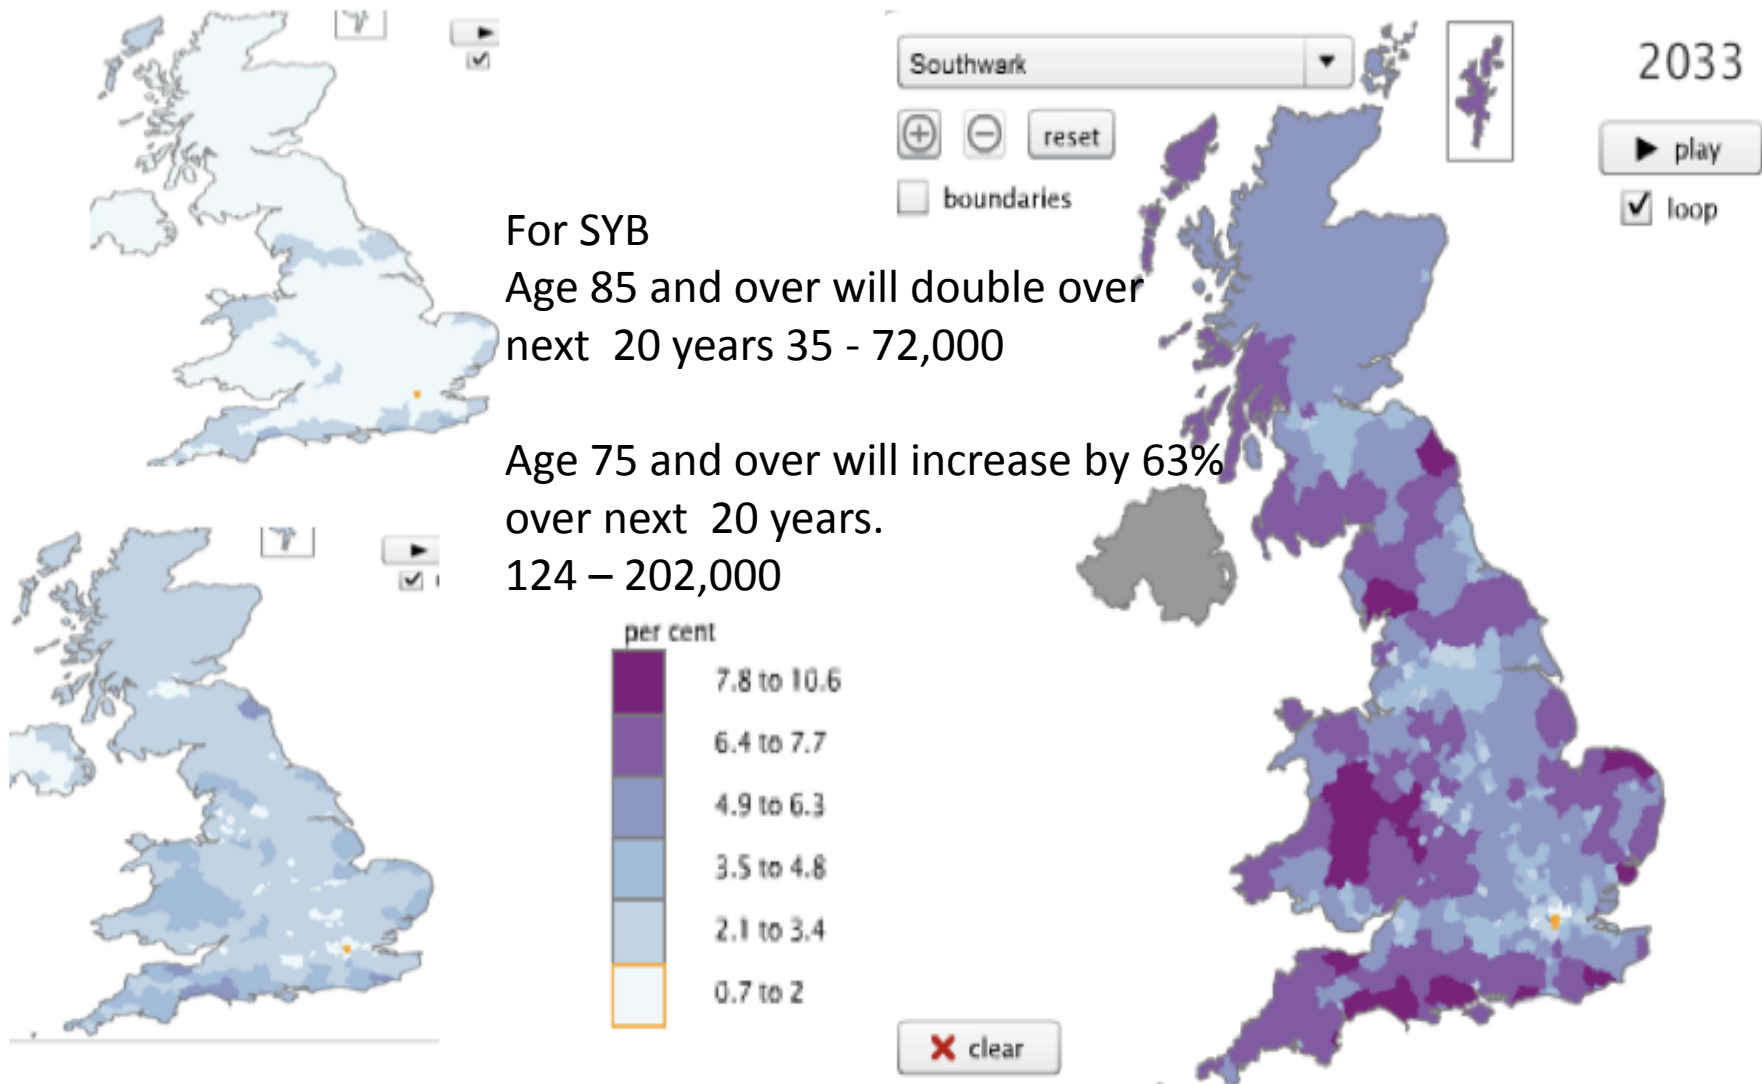

Work with local systems

South Yorkshire and Bassetlaw Accountable Care System

ACS Context – shared challenges

Population 85 and over: 1992, 2015, 2033 (ONS).

ACS Context – shared approach

Local version and way of implementing the **Five Year Forward View**

Overarching strategic plans, defined geography, **building on local work** and collaborations

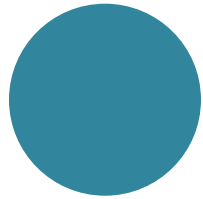

Whole systems coming together to find solutions to local challenges. **Vision, ambition and priorities**

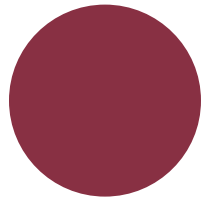

Opportunity to refocus on supporting people to **stay well** for longer **in communities, prevention** and develop **new models of integrated care**

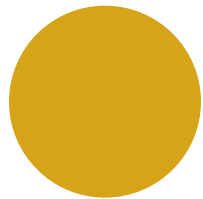

Where are we in SYB?

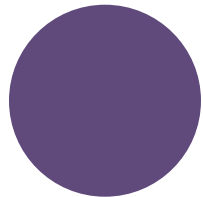

First wave ACS and 5 emerging ACPs

Memorandum of understanding

Strategic plan, with priorities starting to deliver

Communications and engagement approach across the ACS

The SYB ACS priority work-streams

2 major reviews

4 national priorities

5 local priorities

5 enabling priorities

Future of commissioning

Primary care

Living well & prevention

Workforce

Hospital services review

Urgent & emergency care

Elective & diagnostics

Corporate service

Cancer

Children's & maternity

One public estates

Mental health & LD

Digital & IT

Finance

Medicines optimisation

Comms & engagement

Leadership & OD

Accountable Care System – programme governance

5 positives which have helped progress

1

Building on strong history of working together in SYB: coalition of the willing

2

Shared aim that goes beyond health: local focus on population health, education, employment and housing

3

Excellent progress in 'place' : ACPs coming together at pace

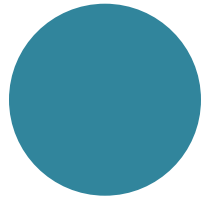

4

Decision making mechanisms in place : provider alliance and joint commissioning committee

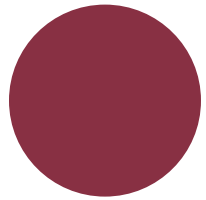

5

Senior leadership is embedded: workstreams led by CEOs and COs

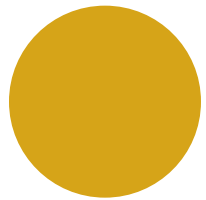

Key ingredients of accountable care systems

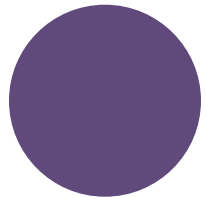

Population health management capability

Determination of health and care outcomes

Provider or provider alliance

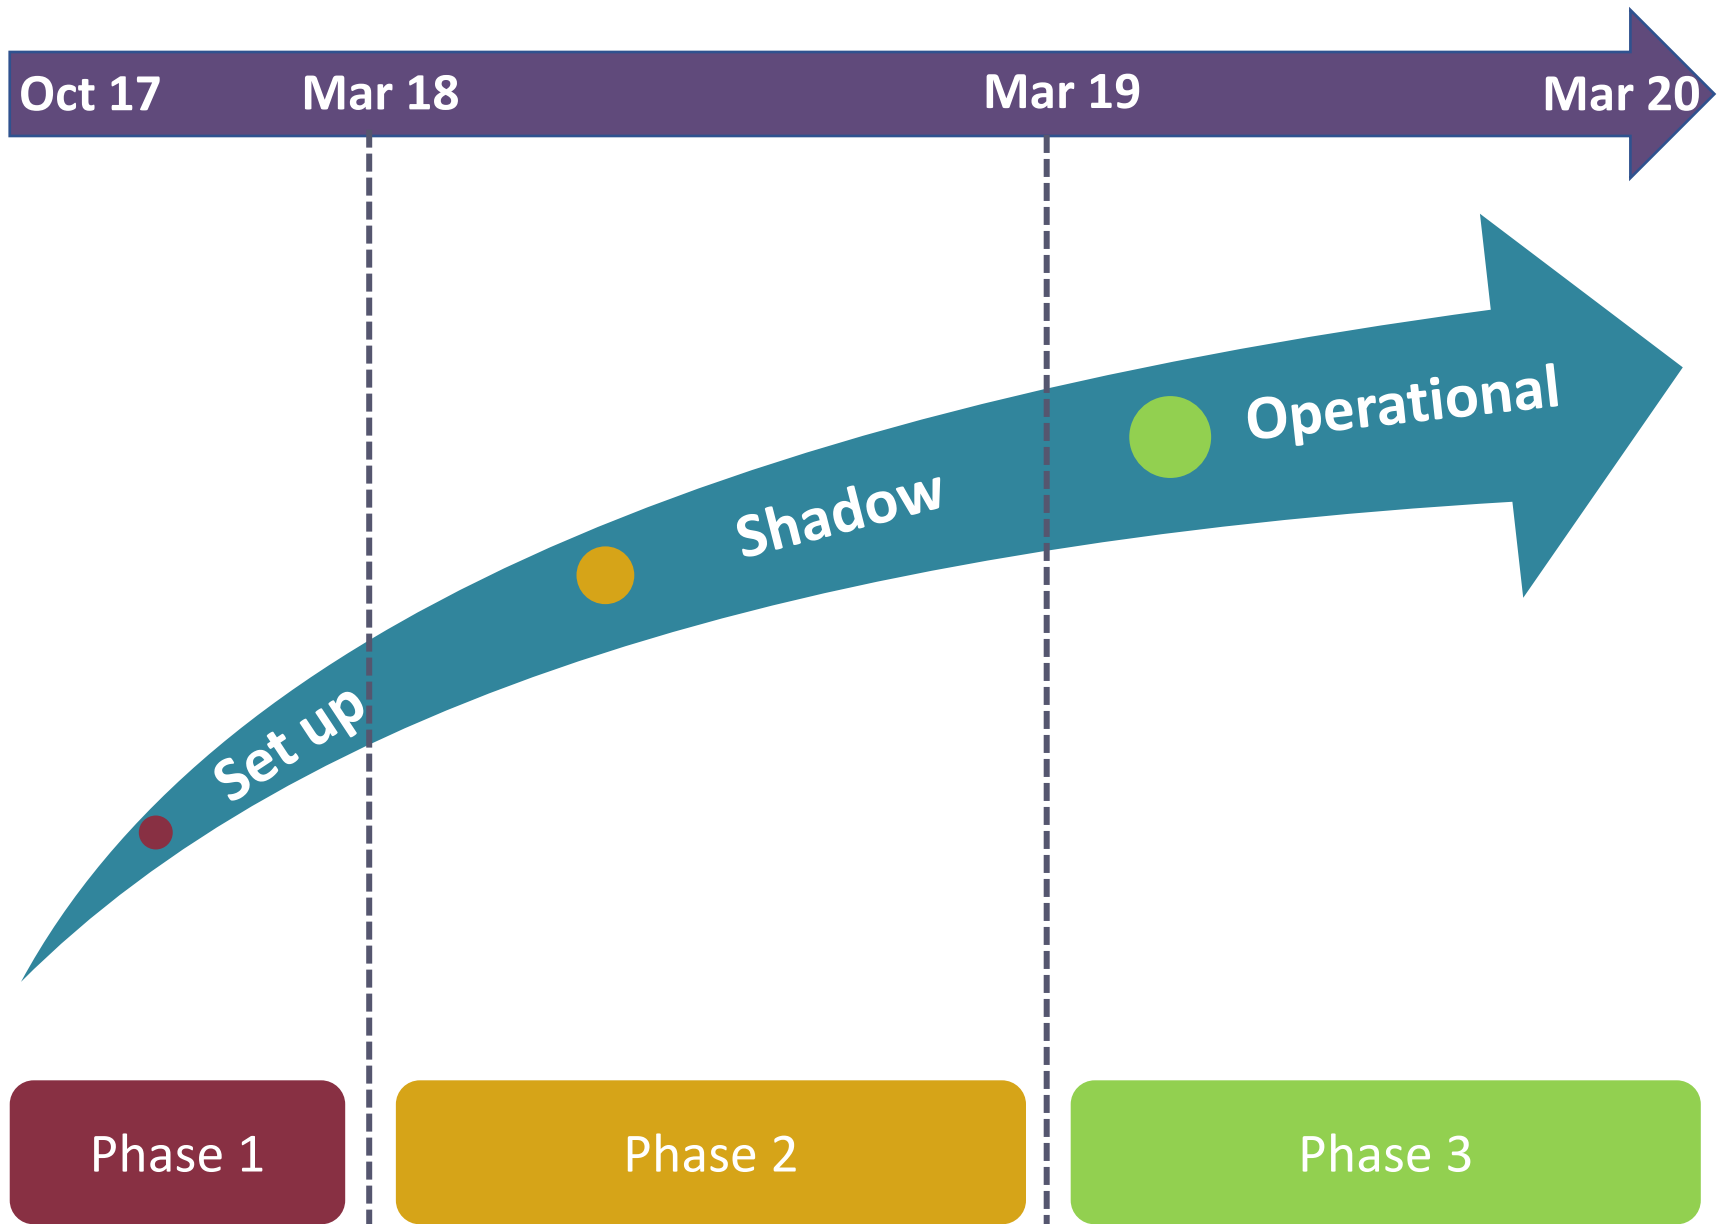

Commissioner or commissioner alliance

Memorandum of Understanding

SYB ACS development timeline

5 key challenges or risks?

1

Service failure not identifying solutions in time

2

Money, system design and perverse incentives

3

Operational here and now preventing time to 'build' for the future

4

Not taking our people with us

5

Not focussing on population health and outcomes

5 challenges for local leaders

1

Wearing three 'hats': organisation, place, system

2

Finding the balance: operational vs strategic or organisation role verses working in partnership

3

Sharing risk: what's the collective appetite?

4

Achieving the right approach and relationship to regulation and regulators

5

Engagement, engagement, engagement!
(Public, staff, stakeholders)

Thank you
